Gama StoneTile

Nuestros diseños únicos de StoneTile brindan una magnífica solución de impermeabilización para construir o renovar su piscina privada o pública.

La gama StoneTile está formulada con ingredientes excepcionales, incluido un revestimiento de superficie mejorado, que garantiza una resistencia superior a las manchas, una resistencia superior a los rayos UV y un agarre antideslizante de tacto seco y perforado como piedra. Las dimensiones de las baldosas varían, en su mayoría ~40 cm por ~20 cm.

StoneFlex Forest

Gama StoneFlex

Nuestra exclusiva gama de diseños StoneFlex permite construir o renovar una piscina utilizando una membrana estanca con una superficie 3D que parece piedra real. Las membranas StoneFlex están formuladas con un recubrimiento superficial mejorado que garantiza una resistencia superior a las manchas, una fácil limpieza y una resistencia excepcional a los rayos UV, así como una sensación de piedra seca y un agarre antideslizante.

Las superficies StoneFlex están cubiertas con 6 capas de revestimiento acrílico protector y tienen una clasificación B de resistencia al deslizamiento.
